1. Review the Health Chapter Draft before the meeting.

Purpose Statement

The purpose of this community effort is to create a Health Chapter in the City of Eau Claire's Comprehensive Plan to help improve human health relative to our built environment.

Chapter Process

The City's Plan Commission will review the draft chapter at their February 4th 2013 meeting. After this staff will prepare the final draft for a public hearing held again at the Plan Commission (meeting TBD). The committee is invited to attend this meeting to speak in support or against policies that made it into the public hearing draft. After the Plan Commission makes a decision to approve the chapter, the document will go before the City Council for review and final approval consideration. We will keep the committee updated on this whole process with emails or you can also check the website for updates.
